1.0 OVERVIEW OF REQUIREMENT

It has been recognized by the federal government that summary based crime and arrest statistics do not provide the level of detail, accuracy, and timeliness that is needed by law enforcement authorities. The National Incident-Based Reporting System (NIBRS) was developed by the FBI to overcome the shortfalls of the UCR summary-based reporting system. Full participation in the Missouri Incident Based Reporting System (MIBRS) necessitates that an agency have the data processing and other resources needed to meet all of MIBRS validation requirements. Data extracted from agency crime incident record management systems and submitted to the State repository for national and State information sharing purposes are more detailed than the traditional UCR Program. For this reason, increased data entry and data processing burdens are involved.

As part of a strategic plan, a MIBRS Committee comprised of representatives from several Missouri law enforcement agencies was formed to identify system and data requirements rich enough with tactical information that could be used to proactively and reactively combat crime in local jurisdictions as well as throughout the State. The MIBRS Committee realized that the federally required elements provide only statistical value and few Missouri law enforcement agencies would voluntarily participate in MIBRS for this reason only. As a result the Committee decided to enhance MIBRS with additional data to ensure it would provide substantial value to all participating law enforcement agencies. Thus, the state repository was constructed to include all federal data elements described in *National Incident-Based Reporting System (NIBRS) Volume 1: Data Collection Guidelines*, all domestic violence elements required by Missouri statute, and a significant number of elements that describe crime incidents, offenses, victims, offenders, arrestees, other associated persons, vehicles, and property in detail.

As part its MIBRS project efforts, the State has built data processing programs, edit / validation programs, error report programs, compliance programs, output reports and queries (tactical, administrative, and statistical), and data transfer interfaces between the State repository, national repository, and existing law enforcement record management systems. The end result of the MIBRS project is the availability of crime incident data to participating law enforcement agencies for information sharing purposes.

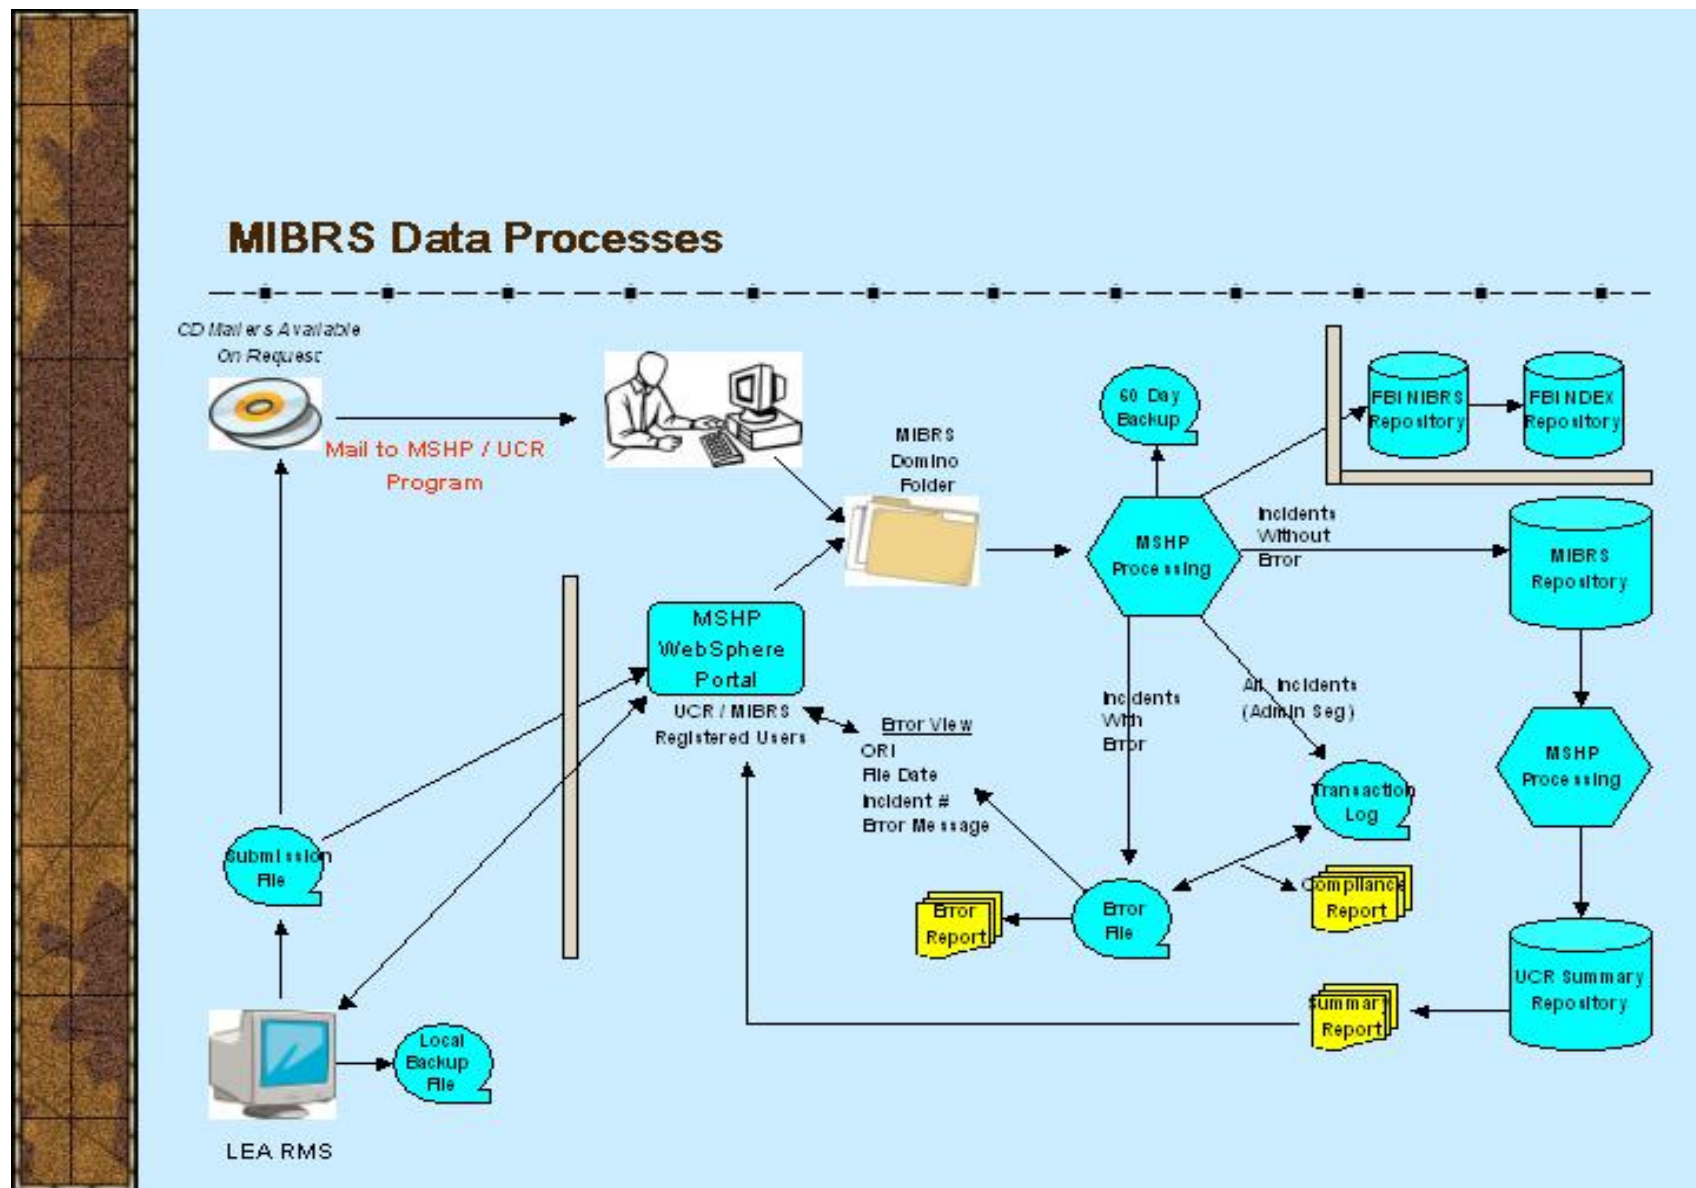

This specification manual is presented to give a clear understanding of what an agency / vendor must provide to the Missouri Highway State Patrol (MHSP) for crime incident data acceptance to the MIBRS state repository. The documented process centers on the production of a set of files to be sent to MSHP and highlights how these file layouts correspond to the MIBRS edits that should be performed in order to validate the data. **Although much effort has been expended to finalize the data specifications and significant changes are not anticipated, users of this document should understand that changes may still occur.** In addition to the MIBRS elements described herein, seven new fields have been added to the Offense Segment file specification. These seven fields can be used to submit data to the Drinking While Intoxicated Tracking System (DWITS). They are reflected as being required or optional in the appropriate data element descriptions.

Agencies and vendor programmers' are encouraged to use this document for construction of computer applications that extract crime incident data from existing record management systems to be submitted to the MIBRS state repository. By utilizing element codes, field / cross edits, and validation rules described, programmers can ensure crime incident data will be accepted into the repository. This document also provides programmers with code tables that can be used for default incident information to be initially populated into their applications that will improve the entry process and reduce data entry error.

In summary, this automated approach should be followed as it provides the following benefits:

- Improved streamlining of crime incident data collection / submission
- Improved quality of data
- Improved administration / clerical processing
- Reduction of data submission backlog

2.0 PROCESSING FLOWCHART

3.0 BUSINESS RULES

3.01 MIBRS/DWITS Optional/Required Rule

- MR = MIBRS Required.
- DR = DWITS Required.
- O = Optional (Not Required)
- The Four Minimum Segment Requirements for first time submitted records are Administrative, Offense, Offender, and Victim Segments.
- The Admin Segment must accompany the any/all other Segments Modified

3.02 Segment Action Type Rule

- Segment Action Type should equal "A" (Add) for the records being submitted for the first time.
- If the Segment Action Type is equal to "M" and the record does not currently exist in our repository, we will overlay the Segment Action Type to "A" for Add. (Note: This scenario may occur as a result of correcting of a first time submitted record). If the record does exist in our repository, the new record submitted will overlay the existing record in our repository.
- A "D" delete record and an "A" add record should not be submitted for the same incident / segment on the same file. A "D" delete record should only be sent for a record submitted on a previous file and the changed record should be submitted as a "M". If during the period of time covered by a specific file, an incident / segment was changed before it was first submitted, it should be submitted as an "M" or "A". The backend processing will check to see if the incident was previously submitted, and if sent as a "M" and not previously submitted, then it will be changed to an "A" for repository processing. If sent as an "M" and it was previously submitted, the existing repository record will be replaced by the newly submitted one. Although not desired by repository load processing, a "D" and "A" submitted on the same file will be assumed to mean a previously submitted incident should be deleted from the repository and then re-added. If a corresponding incident is not previously loaded in the repository, the "D" will be treated as an error.

4.0 Error Processing

4.01 Error File Format

The file format is as follows:

```
Submitting_ori(9), jurisdictional_ori(9), year(4), month(2), incident_no(12),  
segment_action_type(1), segment name(14),error_message(35),error_type(5)
```

4.02 Error View

The errors will be accessible in a View created on the UCR Notes Database. All users that have been UCR registered and approved will have authority to access this view. The view appears as follows:

Submit Ori ^	Jur Ori ^	Year	Month	Incident Num	Segment Type	Segment Name	Error Message	Error Type
MOMHP0000	MO0480300	2005	09	123456789012	0048	Admin	The month cannot be greater than the current month.	1

4.03 Valid Error Type

1=Federal (Note: These errors are the minimum basic requirements needed to submit MIBRS data to the FBI and are critical).

2=State

5.0 File Submission

5.01 Filename Format

The MSHP will only accept files submitted that have the filename format as: nnnnnnnnnnyyyymmddhhmm.txt (where nnnnnnnnnn=ORI, yyyymmdd=date, hh=hour, mm=minute)

5.02 Methods of Submission

- FTP (File Transfer Protocol) - The Highway Patrol's recommended freeware to use is called MOVEit Freely can be found about this free product at: http://www.stdnet.com/products/?category_number=7&subcategory_number=1
- Mail in a CD to Laurie Crawford, CJIS Manager at:

6.0 Offenses

6.0.1 Group "A" Offense Codes - The Group "A" offenses codes consists of 22 crime categories made up of 46 offenses. Both incident and arrests are to be reported for Group "A" offenses. (For specific information on any of the offense codes see Vol. 1 "Data Collection Guidelines" of the National Incident-Based Reporting System):

<u>Code</u>	<u>Offense</u>	<u>Code</u>	<u>Offense</u>
09A - 09C Homicide Offenses		240=Motor vehicle theft	
09A=Murder and Non-negligent Manslaughter			
09B=Negligent Manslaughter		200=Arson	
09C=Justifiable Homicide			
09D=Domestic violence Related Suicide (Missouri)		26A - 26E Fraud Offenses	
		26A=False Pretenses/Swindle/Confidence Game	
11A - 11D Sex Offenses, Forcible		26B=Credit Card/Automatic Teller Machine Fraud	
11A=Forcible rape		26C=Impersonation	
11B=Forcible sodomy		26D=Welfare Fraud	
11C=Sexual assault with an object		26E=Wire Fraud	
11D=Forcible fondling			
		35A & 35B Drug/Narcotic Offenses	
36A & 36B Sex Offenses, Non-Forcible		35A=Drug/Narcotics Violations	
		35B=Drug Equipment Violations

120 =Robbery

220 Burglary/Breaking and Entering

13A - 13C Assault Offenses:

13A =Aggravated Assault

13B =Simple Assault

13C =Intimidation

23A - 23H Larceny/Theft Offenses

23A =Pocket-picking

23B =Purse-snatching

23C =Shoplifting

23D =Theft from building

23E =Theft from coin-operated machine or device

23F =Theft from motor vehicle

23G =Theft from motor vehicle parts or accessories

23H =All other larceny

510=Bribery

250=Counterfeiting/Forgery

290=Destruction/Damage/Vandalism of Property

270=Embezzlement

210=Extortion/Blackmail

39A - 39D Gambling Offenses

39A=Betting/Wagering

39B=Operating/Promoting/Assisting Gambling

39C=Gambling Equipment Violations

39D=Sports Tampering

370=Pornography/obscene material

40A & 40B Prostitution offenses

40A=Prostitution

40B=Assisting or promoting prostitution

280=Stolen Property Offenses

520=Weapon Law Violations

6.0.2 Group “B” Offenses- The Group "B" offenses codes consists of 11 crime categories. The minimum requirements for submission of a Group B arrest are Administration & Group B Segments. However, additional segments such as person, victim, etc. can be submitted for a Group B arrest, and these must pass all required edits. (For specific information on any of the offense codes see Vol. 1 "Data Collection Guidelines" of the National Incident-Based Reporting System):

7.0 RECORD FILE LAYOUTS

7.0.1 Administrative Segment- Every Record must be submitted with an Admin Segment.

Level 1 Administrative Segment									
Field 1	Segment	Required	Field Name	Field Description	Field Value	Field Size	Field Position	Codes	Required Edits
A-1	Administrative	MR	Record Descriptor Word	Indicates the file length of the segment when it is sent to the FBI	AN	4	1-4	<u>Valid Code:</u> 0087	Must be present and must be left justified with blanks right filled.
A-2	Administrative	MR	Segment Level	Identifies record as Administrative Segment	NU	1	5	<u>Valid Code:</u> 1=Administrative Segment	Must be present - cannot be blank.
A-3	Administrative	MR	Segment Action Type	Instructs MIBRS as to what data base activity is to be performed	AN	1	6	<u>Valid Codes:</u> A=Add M=Modify D=Delete W=Time window	Segment Action Type should equal “A” for the first time submitted records. Must be present - cannot be blank.
A-4	Administrative	MR	Month Of Tape	The month which the file was submitted.	AN	2	7-8	<u>Valid Codes:</u> 01=January 02=February 03=March 04=April 05=May 06=June 07=July 08=August 09=September 10=October 11=November 12=December	Must be present - cannot be blank. All segments must have the same month of tape and year of tape when submitted to the FBI.
A-5	Administrative	MR	Year Of Tape	Year which the Month of Tape is in	NU	4	9-12	<u>Format:</u> YYYY	Must be present - cannot be blank.

A-6	Administrative	O	City Indicator		AN	4	13-16	Filler	Must Be Blank
1a	Administrative	MR	Jurisdiction ORI	ORI where incident occurred	AN	9	17-25	Format: MO0000000	<p>Must be present - cannot be blank</p> <p>Must be a valid nine-character NCIC number, where the last two positions of the ORI must reflect 00 for nonfederal participants or a UCR-assigned code for federal participants</p> <p>First two positions must be the code of the state (e.g., MO) in which the incident occurred.</p>
2	Administrative	MR	Incident Number	Unique number assigned by reporting agency to identify incident.	AN	12	26-37	Number must be left justified with blank right-fill.	<p>Must be present - cannot be blank.</p> <p>Must be left justified with blank right-fill if under 12 characters in length.</p> <p>Valid character combinations can include A-Z, 0-9, and hyphens/or blanks. Special characters (\$,%,* etc.) are not valid. (Upper case letters ONLY).</p> <p>Cannot have embedded blanks between the first and last characters.</p> <p>Must be a unique number within a submitting ORI, incident number, tape month, tape year</p> <p>Note: Incident number and submitting ORI will be combined to create a statewide unique incident number.</p>
3	Administrative	MR	Incident Date	The month, day, and year incident occurred or started.[If incident date unknown, enter report date.]	AN	8	38-45	Format: YYYYMMDD	<p>Must be present - cannot be blank Each component of the date must be valid (e.g. days cannot exceed the maximum for the month).When an ORI becomes inactive, no incident data may be submitted with an incident date on or after that date, but adjustments to previously submitted data may be made.No incident report can be accepted that has an incident date earlier than 1/1/91.The date cannot be later than the year and month the file represents.If the segment action type='W' (time-window submission), then there cannot be a date in data element 3 (Incident Date). This also holds if the segment action type='M' (modify) of a previous submitted record with a segment action type='W' (time-window submission).If the segment action type ="M" (modify) then the Incident date cannot be modified.</p>

3	Administrative	O	Report Date Indicator	<p>Indicates the Actual Incident Date. If date is unknown, use the report date in the Incident Date field.</p> <p>[Enter only if Report Date was entered for incident date]</p>	AN	1	46	<p>Valid Codes: R=Report Date used Blank=If Actual Incident Date was used</p>	<p>Must either be blank (indicating incident date known) or contain an "R" in position 46 on the administrative segment (indicating incident date is unknown)</p> <p>If the segment action type ="M" (modify) then the report date indicator cannot be modified.</p>
3	Administrative	MR	Incident Hour	<p>In Military time, indicate hour incident occurred.</p> <p>[If the incident occurred between midnight and 0059 enter 00, if between 0100 and 0159 enter 01, etc.]</p>	AN	2	47-48	<p>Valid Codes: 00=0000 to 0059 01=0100 to 0159 02=0200 to 0259 03=0300 to 0359 04=0400 to 0459 05=0500 to 0559 06=0600 to 0659 07=0700 to 0759 08=0800 to 0859 09=0900 to 0959 10=1000 to 1059 11=1100 to 1159 12=1200 to 1259 13=1300 to 1359 14=1400 to 1459 15=1500 to 1559 16=1600 to 1659 17=1700 to 1759 18=1800 to 1859 19=1900 to 1959 20=2000 to 2059 21=2100 to 2159 22=2200 to 2259 23=2300 to 2359</p>	<p>Hour entered must be 00 through 23. If unknown, leave blank.</p> <p>The incident hour cannot be modified if the segment action type="M".</p>

4	Administrative	MR	Cleared Exceptionally	Submission of arrestee data in connection with an incident automatically clears all offenses within an incident. Incidents can likewise be cleared by exceptional means when some element beyond law enforcement control precludes a physical arrest. Any exceptional clearance in an incident clears all related offenses.	AN	1	49	<p>Valid Codes: A=Death of Offender B=Prosecution Declined C=Extradition Denied D=Victim Refused to Cooperate E=Juvenile No Custody N=Not Applicable</p>	<p>Must be present - cannot be blank</p> <p>Must be a valid code</p> <p>Cannot be "N" (not applicable) if data element 5 (exceptional clearance date) is entered or segment action type in the Administrative Segment equals "W" (Time-Window submission).</p> <p>If a value other than "N" (not applicable) is entered, there can be no Arrestee Segments associated with the Group "A" Incident Report</p> <p>If segment action type equals "M" (modify) then data element 4 (Exceptional Clearance Indicator) must equal "N" (not applicable), unless the incident was previously submitted as a Time-Window submission in which case data element 4 cannot have an "N" (not applicable) .</p> <p>If segment action type equals "W" (Time Window submission) then data element 4 and data element 5 must both be present for the submission to be valid.</p>
---	----------------	----	--------------------------	---	----	---	----	---	---

5	Administrative	MCR	Exceptional Clearance Date	If an incident was cleared by exceptional means, the month, day, and year that it was cleared.	AN	8	50-57	Format:YYYYMMDD Blank = Not Applicable	Clearance date cannot be earlier than the incident date and cannot be later than the current date. Must be present if case was cleared exceptionally (per data value code in data element 4) Each component of the date must be valid (e.g. days cannot exceed the maximum for the month). Date cannot be later than the date of tape submission. If (Adm) segment action type equals "W" (Time Window Submission) then data element 4 and data element 5 must both be present for the submission to be valid. If (Adm) segment action type equals "W" (Time Window Submission) then data element 5 cannot have an earlier Time-Window Base Date. This is also true for any subsequent (M=Modify) incident of a previously submitted Time-Window Submission. If (Adm) segment action type equals "M" and data element 4 (Exceptional Clearance Indicator) equals "N" then data element 5 (Exceptional Clearance Date) cannot have an entry (must be blank). If (Adm) segment action type equals "M" (modify) for a previously submitted "W" (Time-Window Submission) then data element 5 (Exceptional Clearance Date) must have a date. If the (Adm) segment action type equals "W" (Time-Window submission) or "M" (Modify) then the date cannot be any earlier than the date the ORI/agency went IBR.
6	Administrative	MCR	MIBRS Offense Code #1	MIBRS Offense Code The only record(s) accepted are: > Records that are being Exceptionally Cleared; > Reporting an arrest for an incident that falls outside of the Time-Line Window; or > Reporting an incident where Property was recovered. 7.0.2 Offense Segment- An Offense Segment must accompany every 1st time submitted record.

Offense Segments are used to identify and describe the types of offenses involved in the incident. An Offense Segment should be submitted for each of the (up to) ten most serious Group “A” or Group “B” offenses in the incident. Only one Offense Segment should be submitted for each reported UCR Offense Code even though there may have been more than one victim of the crime. At least one Offense Segment must be submitted for each Incident Report.

Level 2 Offense Segment									
Field 1	Segment	Required	Field Name	Field Description	Field Value	Field Size	Field Position	Codes	Required Edits
O-1	Offense	MR	Record Descriptor Word	Indicates the file length of the segment when it is sent to the FBI	AN	4	1-4	Valid Code: 0063	Must be present and must be left justified with blanks right filled.
O-2	Offense	MR	Segment Level	Identifies record as Offense Segment	NU	1	5	Valid Codes: 2=Offense Segment	Must be present - cannot be blank.
O-3	Offense	MR	Segment Action Type	Instructs MIBRS as to what data base activity is to be performed	AN	1	6	Valid Codes: A=Add M=Modify D=Delete	Segment Action Type should equal “A” for the first time submitted records. Must be present - cannot be blank.
O-4	Offense	MR	Month Of Tape	The month which the file was submitted.	AN	2	7-8	Valid Codes: 01=January 02=February 03=March 04=April 05=May 06=June 07=July 08=August 09=September 10=October 11=November 12=December	Must be present - cannot be blank.
O-5	Offense	MR	Year Of Tape	Year which the Month of Tape is in	NU	4	9-12	Format: YYYY	Must be present - cannot be blank.

7.0.3 Property Segment

Property Segments are used to describe the type, value and (for drugs and narcotics seized in drug cases) quantity of property involved in the incident.

*A Property Segment should be submitted for each type of property loss that occurred in the incident.

*Property Segments should be submitted when a Crime Against Property or Kidnapping/Abduction is involved in an incident.

*Therefore, Property Segments should be submitted ONLY IF the incident included on or more of the Property Offenses.

7.0.8 Zero Report Segment

On Occasion, a small reporting agency may have no crime, arrests, or recovered property to report for a given month. In order to compute valid crime rates and trends, it is necessary that the MSHP be able to identify months during which no criminal activity occurred. The Zero Report is used for this purpose. Any submission of a Group “A” Incident Report, Group “B” Arrest Report, or Arrestee Segment will negate the need for a Zero Report for the month.

Zero Report File
